

CLEANING & SANITIZING

Best Practices

AG Kidmin

NURSERY

*** Check with your local daycare facilities and schools for the best practices.

Check-in Stations

- ☒ Avoid self-check-in stations - use volunteers to check kids in
- ☒ Supply disinfectant wipes and gloves at check-in stations
 - Add instructional pages to stations
 - Disinfect before and after each use
- ☒ Research check-in by phone options

Room

- ☒ Set up regular deep cleaning practices using soap and water and disinfectants
- ☒ During services, regularly use the following on frequently used areas like tables, countertops, chairs, light switches, doorknobs, handles, etc.
 - Soap and water
 - Spray disinfectant
 - Disinfectant wipes
- ☒ Service and classroom doors can be blocked open or volunteers can hold them open to avoid multiple touches

Changing Stations

- ☒ Use gloves
- ☒ Disinfect before and after each use

Toys

- ☒ Advise parents to NOT bring anything from home
- ☒ Remove porous toys made of cloth or wood that cannot be disinfected
- ☒ Disinfect between services or classes
 - Consider extra sets of toys for multiple services - use tubs and rotate toys

NURSERY

- ☒ To clean, use soap and water first
- ☒ To disinfect, spray with disinfectant using these CDC recommendations
 - 1/3 cup bleach (check for expiration date):1-gallon water
 - Let air dry
- ☒ When cleaning, use gloves and an apron (Personal Protective Equipment – PPE)
- ☒ Pacifiers should be washed in hot water and soap if dropped
- ☒ Sippy cups (NONE from home) should be replaced with a fresh cup if dropped

Child

- ☒ Enforce your well child policy (samples attached)
- ☒ Ask parents to ONLY pack necessities in diaper bags (diapers, bottles, etc.)
- ☒ If possible, leave diaper bags outside the room

Workers

- ☒ Consider an orientation or training for best practices
- ☒ ONLY approved and cleared workers in the room
 - Temperature checks for all workers before entering the room
 - No parents in the nursery room
 - Stay home if you or someone in your household has a temperature over 100.4 degrees
- ☒ Regularly wash hands with soap for at least 20 seconds
- ☒ Make use of:
 - Socks that stay in the room or shoe guards (footies)
 - Gloves
 - Masks based on your local recommendations

PRESCHOOL

*** Check with your local daycare facilities and schools for the best practices.

Check-in Stations

- ☒ Avoid self-check-in stations - use volunteers to check kids in
- ☒ Supply disinfectant wipes and gloves at check-in stations
 - Add instructional pages to stations
 - Disinfect before and after each use
- ☒ Research check-in by phone options

Room

- ☒ Set up regular deep cleaning practices using soap and water and disinfectants
- ☒ During services, regularly use the following on frequently used areas like tables, countertops, chairs, light switches, doorknobs, handles, etc.
 - Soap and water
 - Spray disinfectant
 - Disinfectant wipes
- ☒ Service and classroom doors can be blocked open or volunteers can hold them open to avoid multiple touches

Services and Classes

- ☒ Group according to local guidelines
 - Children should remain in the same groups and in the same space
- ☒ Use social distancing policies for activities, snacks, worship, etc.
 - Consider socially distanced chairs or tape on the floor
 - Consider movable squares only if they are made of a non-porous material
 - Do NOT use loose carpet squares since they cannot be disinfected
- ☒ Choose games and activities that do NOT require touching
- ☒ Distribute either individually wrapped or packaged snacks and materials
 - For example: put 10 crayons in a baggie rather than children using out of the same tub

PRESCHOOL

Toys

- ☒ Advise parents to NOT bring anything from home
- ☒ Remove porous toys made of cloth or wood that cannot be disinfected
- ☒ Disinfect between services or classes
 - Consider extra sets of toys for multiple services - use tubs and rotate toys
- ☒ To clean, use soap and water first
- ☒ To disinfect, spray with disinfectant using these CDC recommendations
 - 1/3 cup bleach (check for expiration date):1-gallon water
 - Let air dry
- ☒ When cleaning, use gloves and an apron (Personal Protective Equipment – PPE)
- ☒ Pacifiers should be washed in hot water and soap if dropped
- ☒ Sippy cups (NONE from home) should be replaced with a fresh cup if dropped

Child

- ☒ Enforce your well child policy (samples attached)
- ☒ Prior to entry, request parents take the child to use the restroom to reduce restroom use in class and to wash their hands (at least 20 seconds with soap and water) prior to entering the children's area

Workers

- ☒ Consider an orientation or training for best practices
- ☒ ONLY approved and cleared workers in the room
 - Temperature checks for all workers before entering the room
 - No parents in the nursery room
 - Stay home if you or someone in your household has a temperature over 100.4 degrees
- ☒ Regularly wash hands with soap for at least 20 seconds
- ☒ Make use of:
 - Gloves
 - Masks based on your local recommendations

ELEMENTARY

*** Check with your local daycare facilities and schools for the best practices.

Check-in Stations

- ☒ Avoid self-check-in stations - use volunteers to check kids in
- ☒ Supply disinfectant wipes and gloves at check-in stations
 - Add instructional pages to stations
 - Disinfect before and after each use
- ☒ Research check-in by phone options

Room

- ☒ Set up regular deep cleaning practices using soap and water and disinfectants
- ☒ During services, regularly use the following on frequently used areas like tables, countertops, chairs, light switches, doorknobs, handles, etc.
 - Soap and water
 - Spray disinfectant
 - Disinfectant wipes
- ☒ Service and classroom doors can be blocked open or volunteers can hold them open to avoid multiple touches

Services and Classes

- ☒ Group according to local guidelines
 - Children should remain in the same groups and in the same space
- ☒ Use social distancing policies for activities, snacks, worship, etc.
 - Consider socially distanced chairs or tape on the floor
 - Consider movable squares only if they are made of a non-porous material
 - Do NOT use loose carpet squares since they cannot be disinfected
- ☒ Choose games and activities that do NOT require touching
- ☒ Distribute either individually wrapped or packaged snacks and materials
 - Example: put 10 crayons in a baggie rather than children using out of the same tub
 - Do NOT use homemade snacks

ELEMENTARY

- ☒ Consider using disposable plates and cups for snacks or ensure they are washed and disinfected properly between uses

Toys

- ☒ Advise parents to NOT bring anything from home
- ☒ Remove porous toys made of cloth or wood that cannot be disinfected
- ☒ Disinfect between services or classes
 - Consider extra sets of toys for multiple services - use tubs and rotate toys
- ☒ To clean, use soap and water first
- ☒ To disinfect, spray with disinfectant using these CDC recommendations
 - 1/3 cup bleach (check for expiration date):1-gallon water
 - Let air dry
- ☒ When cleaning, use gloves and an apron (Personal Protective Equipment – PPE)

Child

- ☒ Enforce your well child policy (samples attached)
- ☒ Prior to entry, request parents take the child to use the restroom to reduce restroom use in class and to wash their hands (at least 20 seconds with soap and water) prior to entering the children's area

Workers

- ☒ Consider an orientation or training for best practices
- ☒ ONLY approved and cleared workers in the room
 - Temperature checks for all workers before entering the room
 - No parents in the room
 - Stay home if you or someone in your household has a temperature over 100.4 degrees
- ☒ Regularly wash hands with soap for at least 20 seconds
- ☒ Make use of:
 - Gloves
 - Masks based on your local recommendations

CHURCH

*** Check with your local daycare facilities and schools for the best practices.

Church and Rooms

- ☒ Set up regular deep cleaning practices using soap and water and disinfectants
- ☒ During services, regularly use the following on frequently used areas like tables, countertops, chairs, light switches, doorknobs, handles, etc.
 - Soap and water
 - Spray disinfectant
 - Disinfectant wipes
- ☒ Consider setting up a team that would work through services and classes continuously cleaning and disinfecting
 - Consider “cleaning” the kids’ restrooms every 20 minutes
- ☒ Doors can be blocked open or volunteers can hold them open to avoid multiple touches
 - When entering or exiting the building
 - Before and after services or classes
 - Consider installing Hands-Free Foot Door Openers especially on restroom doors
- ☒ Coffee – No self-serve
- ☒ Consider adding trash receptacles for added disposable material usage
- ☒ Set up one-way hallways or directional signage or tape on the floor to direct foot traffic
- ☒ For children’s areas, consider a central location for drop-off with volunteers then walking children to their classrooms or areas.

Services and Classes

- ☒ Group according to local guidelines
- ☒ Use social distancing policies
- ☒ Consider asking families to “register” for the service(s) they plan to attend to avoid capacity issues

CHURCH

Workers and Volunteers

- ☒ Consider an orientation or training for best practices
- ☒ Use ONLY approved and cleared workers
 - Temperature checks for all workers before entering the room
 - Stay home if you or someone in your household has a temperature over 100.4 degrees
- ☒ Regularly wash hands with soap for at least 20 seconds
- ☒ Make use of:
 - Gloves
 - Masks based on your local recommendations

Check-in Stations

- ☒ Avoid self-check-in stations - use volunteers to check kids in
- ☒ Supply disinfectant wipes and gloves at check-in stations
 - Add instructional pages to stations
 - Disinfect before and after each use
- ☒ Research check-in by phone options
